Harmon C. McAllister, Ph.D.
Reserach Director
The Council for Tobacco Research - U.S.A., Inc.
900 Third Avenue
New York, NY 10022

Dear Dr. McAllister:

Enclosed is a copy of the first manuscript in press, supported by a grant from the Council for Tobaccco Research. We plan to submit a paper soon on the regulation of CNS nicotinic receptors by drugs which have been characterized as noncompetitive blockers of peripheral nicotinic receptors. Also our studies with ^{11}C-nicotine are continuing. I will keep you informed about our progress.

As we discussed during your visit to Baltimore in December, I would very much appreciate it if the Council for Tobacco Research would provide partial support for a symposium which I have recommended for the next annual meeting of the American College of Neuropsychopharmacology. The meeting is to be held in Maui in December, 1989. A proposal for the format is enclosed. I look forward to hearing from you about this matter.

With my best regards, I remain

Sincerely yours,

EDLondon

Edythe D. London, Ph.D.
Chief, Neuropharmacology Laboratory, NIDA
Associate Professor, Div. Nuclear Medicine
The Johns Hopkins School of Medicine
